

## **SV TCL Recognized as a THE BEST Subsystems Supplier** Receives High Rating in VLSIresearch's 2014 Customer Satisfaction Survey

-----MEDIA RELEASE FOR IMMEDIATE CIRCULATION-----

(TEMPE, ARIZONA, May 21, 2014) – SV Probe Pte. Ltd. (“SV TCL”), one of the world’s leading suppliers of high-performance probe cards, announced today that it has been recognized by VLSIresearch as one of THE BEST suppliers according to their 2014 Customer Satisfaction Survey.

The annual survey is based upon customer feedback gathered by VLSIresearch over a two month period. Customers rated vendors on supplier and product performance as well as customer service. SV TCL ranked 2<sup>nd</sup> in the Subsystems Supplier category, moving up from the 5<sup>th</sup> ranking last year.

“We are very honored by this recognition,” said Mr. Kevin Kurtz, President & CEO of SV TCL. “Since our acquisition of Tokyo Cathode Laboratory last year, we have worked hard to create a seamless transition with little or no disruption to our customers. This survey has proved that our efforts have been successful. We have always been and will continue to be committed to providing our customers the best products and customer service.”

This year’s survey results reflect the hard work and dedication of SV TCL and its employees,” commented G. Dan Hutcheson, CEO of VLSIresearch. “SV TCL’s commitment and ability to partner with their customers to develop innovative test products earned them an outstanding score of over 9.0 this year,” he continued.

Probe cards are essential tools in the electrical testing of semiconductor wafers before they are diced, packaged and assembled in electronic products such as tablets, smart phones, computers and digital media players.
